About Me

I'm Computer Engineering student at Universitas Gunadarma, specializing in Network Engineering. Skilled in network architecture, routing protocols, and system optimization. Proven ability to thrive in collaborative teams, perform under pressure, and solve complex connectivity challenges. Dedicated to building secure, scalable IT infrastructure.

Education

2023 - | Gunadarma University

D3 Computer Engineering (GPA 3.84/4.00)

Experience Work

2023 - Present | Computer Engineering student association (HIMATEKKOM.UG)

Creatif Media :

- Designed and executed professional visual assets, including social media content, posters, and banners to support Himatekkom's operational activities.
- Managed content scheduling and feed aesthetics, maintaining professional standards across all digital platforms.
- Increased event attendance by 40% compared to the previous year, while simultaneously delivering consistent and high-quality visual assets across all print and digital marketing channels.

Head Human Resource Development :

- Managed internal communications and proactively resolved team conflicts, maintaining member participation and engagement levels above 85%.
- Managed the planning and implementation of all departmental initiatives.

2026- Present | Advanced Computer System Laboratory

- Taught and guided practicum courses: Mobile System Computing (Flutter & Golang), Basic Networking (Cisco Packet Tracer), and Advanced Networking (Linux Ubuntu).
- Mentored IoT projects using ESP32, Firebase, and Flutter

Skills

- | | | |
|-----------------------|--------------------------|---------------|
| • Network Design | • Hardware Knowledge | • Strategic |
| • Operating system | • Microsoft Office Suite | Communication |
| • Routing & Switching | • Software Proficiency | • Leadership |
